Blizzard Wizard® Ice Melt

Description

Blizzard Wizard® Ice Melt is one of the choice products among snow-fighting professionals for melting ice and snow. Blizzard Wizard® Ice-Melt crystals are fully encapsulated with Ice B'Gone II® and provide the low-temperature performance of costly ice-melt products while creating an ice shield that provides long-lasting, residual effects for additional melting power. Blizzard Wizard's combination of ingredients is friendlier to pets and the environment and has earned the Design for the Environment distinction by the United States Environmental Protection Agency.

Approved Use

Blizzard Wizard® Ice Melt quickly de-ices surfaces and is friendly to pets and the environment.

Availability

Blizzard Wizard® Ice Melt is available in 10, 20, 25, 40, and 50 LB poly bags; 12 LB jugs; and, 50 LB pails.

Storage

Close bag tightly and store in a dry place. Do not store where leaking of contents may cause damage to the surface(s) upon which, or below which, it is stored.

Product Data

Arctic Thaw[®] Ice-Melt Blend with Calcium Chloride and CMA

Description

Arctic Thaw[®] Ice-Melt Blend with Calcium Chloride and CMA (Calcium Magnesium Acetate) is a unique combination of heat-generating, ice-melting components which quickly break the bond between pavement and snow and ice. Arctic Thaw[®] Ice-Melt Blend's blue crystals are easy to see for even application and are gentle on the environment. Arctic Thaw[®] Ice-Melt Blend with Calcium Chloride and CMA is unique in that all ingredients are blended, not added topically, resulting in a more consistent mixture of components. Arctic Thaw[®] Ice-Melt Blend with Calcium Chloride and CMA also is ideally sized for use in most industrial & commercial spreader applications.

Approved Use

Arctic Thaw[®] Ice-Melt Blend is designed to quickly de-ice surfaces with minimal environmental impact.

Availability

Arctic Thaw[®] Ice-Melt Blend with Calcium Chloride and CMA is available in 50# poly bags.

Storage

Arctic Thaw[®] Ice Melt Blend with Calcium Chloride and CMA should be stored in a dry, covered area to minimize caking.
