More positive impressions.

At Perkins we understand the power of positive impressions. We know that from the moment a customer approaches your establishment they're judging you on cleanliness. They're noticing details, big and small. Things like clean, odor-free carpets, streak-free windows and sparkling hands-free restrooms – images that combine to create a "window" into your kitchen that reassures them it's clean, organized and most importantly, germ-free.

It is with this window in mind that the Perkins janitorial and sanitation team approaches every challenge. Whether you're looking to cut labor costs, improve efficiency, solve a cleaning problem or incorporate "green" solutions, you can rest assured. We provide the quality products, the expert advice and the unwavering support you need to make sure your operation shines, front-to-back.

"Several of our clients were looking to improve restroom cleanliness. The professionals at Perkins helped us quickly and easily convert them to automated systems. The feedback has been tremendous – the restrooms are cleaner than ever and our clients and their customers love the new look."

*Jon Beale, President
Beale's Quality Cleaning*

More top brands.

At Perkins, we offer quality products to meet any housekeeping or sanitation need, including the region's most extensive selection of national brands. With names like Johnson Diversey, Kimberly Clark, Drackett, Georgia Pacific, SCA, and Foodhandler, purchasing top-quality is never a problem here. In addition, our own Daymark cleaning products and Cleanworks chemical dispensing systems provide quality, cost-effective alternatives.

**More smart solutions.
More expert support.**

An insatiable desire to explore new concepts, coupled with an extensive selection of quality products enables Perkins people to deliver more smart solutions than any other distributor. From the industry's most advanced chemicals and compounds, to innovative new paper and toweling products, to state-of-the-art hands-free restroom systems, we have the options that will make your job easier.

And with all of these smart solutions comes unwavering support. Need training on restroom sanitation procedures? Advice on cleaning equipment or chemicals? Tips to improve efficiency? For the Perkins janitorial and sanitation team, it's no problem. Here, expert support is always part of the solution.

"A Massachusetts hospital wanted to cut down on cross contamination in patient rooms. We suggested microfiber mops. Because they're lightweight, it's easy for housekeepers to take one to each room. They also clean more effectively and don't require a bucket and wringer. Thanks to the new mops, the hospital has successfully reduced cross contamination."

John Broderick, Account Executive
Perkins
