Dear Seafood Customer,

Our long-term strategies and short-term actions are driven by core values that are shared by each and every Perkins employee - quality, service, professionalism, integrity, value and effort.

This promise can be extended to our products as well. Rest assured, the product is always exactly what we say it is.

In an industry that has struggled to find consistency due to under-regulation, over-regulation, self-policing, and oceans of certifying agencies, we, at Perkins, are building our seafood program on a simple philosophy; "consistently deliver an honest product at a competitive price and meet or exceed our commitments to those we serve".

With over 75 years combined experience, our passion for seafood ensures that we are continually challenging ourselves by bringing you the very best quality and value available.

We expect a lot from our suppliers. Our relationship with them is deep rooted; slowly, sturdily and successfully built over many years, from boat to plate, bringing you the very best the world has to offer.

Sincerely,

Bruce Hall

Perkins Seafood Team
