TR Natural Premium Angus Beef is one of the few "old-fashioned" beef producers remaining in the United States. We have been providing quality meats to the market for generations.

All cattle originate from a group of small, independent, responsible producers who believe in raising cattle the way nature intended. Our cattle slowly mature, under personalized care, without growth enhancers or artificial additives. TR Natural beef is hand selected by each and every farmer and rancher that make up our cattle operations.

We believe that you should not have to wonder where your beef is from. All our cattle are from the USA. We are source verified for your peace of mind.

Each producer treats their cattle with great care and will not rush nature's process. This is what makes our beef stellar.
